CODETABEL

Rules for modification codes

Identify the 3 mid digits (=SERIES) of the serial number of your machine. Eg.: 165**102**032

Modification codes begin with:
C for a part number valid UNTIL series ...,
F for a part number valid FROM series ... UNTIL series ...,
D for a part number valid FROM series ... ONWARDS.

Example:
C092: part number valid until series 092
F093109: part number valid between series 093 and 109
D110: part number valid from series 110 onwards
If your machine has serial number 165**102**032, choose the second part number in our example since 102 is between 093 and 109.
